# Ministry of tourism launches the 'Incredible India' mobile application

TNN | Sep 3, 2014, 08.22 PM IST

*The ministry of tourism has launched the 'Incredible India' mobile application that will provide information about ministry recognized tourism service.*

PUNE: The ministry of tourism has launched the 'Incredible India' mobile application that will assist international and domestic tourists to access information about ministry recognized tourism service providers namely approved inbound tour operators, adventure tour operators, domestic tour operators, tourist transport operators, travel agents, regional level guides, classified hotels available in respective cities / tourist centres.

Details of the same will be given through this application to the tourists on their mobile phones based on their current location. Tourist can also query similar details for any other city he plans to travel to in future. In addition to this, the application will provide places of interest. This mobile application has been developed as part of the initiative of the new government in taking important positive decisions, especially, affecting the general public since its taking over the charge.

This new application developed by the National Informatics Centre (NIC) will help the tourists in seeking services from government of India recognized service providers and receive quality and reliable services from them. The app demonstrates ministry of tourism's commitment use of technology for service delivery.

Incredible India Mobile Application (IMA) is available for the Android Phones on the Google Play store and for iphone this will available in App Store during coming week.

# Tourism Ministry launches 'Incredible India' app

By Agencies | Posted 04-Sep-2014

**New Delhi:** The Ministry of Tourism yesterday launched a new mobile application that will give domestic and international travellers access to government-recognised tourism service providers and details about places of interest on the go.

Developed by the National Informatics Centre, the 'Incredible India App' will allow the details to be shared on the tourist's mobile phone or phone-based device depending on his or her current location in the country, the ministry said.

It will give them access to information about government-recognised tourism service providers — approved inbound operators, adventure tour operators, domestic tour operators, transport operators, travel agents, regional level guides and hotels available in respective cities.

“This mobile application has been developed as part of the initiative of the new government in taking important and positive decisions, especially those affecting the general public, since taking charge. The application demonstrates the Ministry of Tourism's commitment to the use of technology for service delivery,” Tourism Secretary Parvez Dewan said at the launch of the application.

Tourists can also get details for any other city they plan to travel to in future. The application is available for Android devices on the Google Play store and for will be made available on the Apple App store in the coming week.
