# NCSM Enthralls Visitors with Interactive Science Exhibition at Bharat Parv 2026

Posted On: 29 JAN 2026 12:36PM by PIB Delhi

The National Science Centre, Delhi, a unit of the National Council of Science Museums (NCSM), is captivating audiences with a vibrant and interactive science exhibition at Bharat Parv 2026, being held at the Red Fort Lawns as part of the Republic Day celebrations organized by the Ministry of Tourism from January 26 to 31, 2026.

The NSCM exhibition at Central Ministries stall No.-9, aims to popularize science and promote scientific temper among the general public through engaging, hands-on experiences. Visitors are exploring a wide range of portable exhibits that demonstrate fascinating scientific principles such as fluid dynamics, vortex formation, centre-of-gravity phenomena, and a visual proof of the Pythagoras theorem, making complex concepts accessible and enjoyable.

Showcasing the integration of science with modern technology, the exhibition features virtual cycling, zoom tables, and a digital orchestra, where motion sensors allow participants to conduct music without physical instruments. A major attraction is the AI-powered digital morphing booth, which transforms visitors into popular movie characters or iconic attire, creating excitement and memorable photo opportunities.

In addition, live science demonstration lectures conducted by experts simplify core scientific concepts including Bernoulli's principle, moment of inertia, conservation of angular momentum, and fluid mechanics, helping visitors

relate abstract theories to real-world applications.

Operating under the Ministry of Culture, NCSM, with its network of 25 Science Centres across India, continues to reaffirm its commitment to fostering curiosity, innovation, and scientific awareness among citizens through such outreach initiatives.
